

EXPANSION - NATURES AND SHINY POKÉMON

Pokémon have long had individual natures that impact their development as they grow. While there's no way to implement that system into PMTU without a major rules overhaul, there are ways to implement simpler game functions and abilities to flavorfully evoke behavior associated with a nature's name. This page details a set of rules that you can use to lend a degree of uniqueness to your Pokémon.

INTERACTING WITH NATURES

At the beginning of the game, shuffle the Nature deck and set it next to the Region Map board with the other decks.

When a Pokémon token is revealed before any type of encounter or when one would be added directly to your team, make a Nature Roll. To do so, roll a **d6**. On a 4, 5, or 6, reveal the top card of the Nature deck and attach it to the Pokémon. If the card has the phrase, "**On Attach:**", perform the instructions that follow the phrase immediately. This may cause you to discard the card or shuffle it away.

OPTIONAL: At your group's discretion, you can use Natures in conjunction with other Attach Cards by introducing a second Attachment Card Slot on your Pokémon Rack. Without the use of custom racks, you may need to overlap the cards.

Nature cards that stay attached to the Pokémon grant some kind of ongoing benefit to it, though some are conditional. Any time the conditions are fulfilled, the Pokémon gains the benefit on the card, even if it has not yet been caught by a Trainer.

If a Pokémon with a Nature card attached to it is caught, or if the encounter ends in a way that would leave a Pokémon token faceup on a **CATCH 'EM** space, the Nature card stays attached to it (place the card underneath the token). If the Pokémon token is returned to storage, put the Nature card into the Nature discard pile.

If the Nature deck ever runs out of cards, shuffle the discard pile to form a new Nature deck.

SHINY POKÉMON

You can use this optional rule to make it even more exciting to encounter a ✨ Shiny Pokémon.

Whenever a revealed Pokémon token becomes ✨ Shiny, whether that be through an Item card like **Shiny Charm**, the **Shiny** Nature card, or some other effect, that Pokémon immediately gains a Level. Replace the token with the ✨ Shiny version of that token and place a Level Die next to it to denote its gained Level. The Pokémon stays ✨ Shiny as it Evolves.
